Note.—The Returns here called for by Parliament are those of cases adjudged under slave trade treaties, and of slaves emancipated in consequence within a certain period.

A column headed "Remarks" has been added, to distinguish the vessels condemned without slaves on board from those restored.

The total number of vessels adjudged and of slaves emancipated has also been given; and two classes of cases have been included which do not strictly come within the terms of the Order. The first, that of cases in which prosecutions were commenced, but subsequently abandoned by the captors; and the second, that of cases brought before the Court, but which the Court declared itself incompetent to entertain, and on which consequently no adjudication took place.

Foreign Office,  
21 February 1845.

Wherever in the above Return the date of arrival is not given precisely, it is because the case is taken from the half-yearly or general Reports sent in by H. M. servants, which frequently state the number of arrivals since the preceding Report, without mentioning the particular day on which each took place.

The Reports made by British functionaries of the arrivals of slave vessels in Transatlantic ports, from which the present Return is compiled, must not be considered as giving an account of all cases in which slaves have been imported. This will appear from the following extracts from the Reports in question:—

BRAZIL:—1. H. M. Consul at Rio de Janeiro. 14 October 1842.

The present system of fitting out vessels for Africa at different out-ports, and landing the cargoes of slaves at the numerous secluded harbours, is so general and well organized, and receives such protection from the Brazilian authorities, that a considerable slave trade is continued without a possibility of obtaining exact information as to its extent.

2. H. M. Consul at Rio de Janeiro. 28 April 1843.

I transmit herewith Returns of the arrivals from, and departures for, the coast of Africa, during the quarter ending the 31st ultimo, officially reported in this place, but bearing a very small proportion to the intercourse clandestinely carried on between the out-ports and Africa.

3. H. M. Commissioners and H. M. Consul at Rio de Janeiro. 17 July 1843.

The great number of slaves shown by these tables to have been landed is in our opinion still far short of the total of slaves actually introduced throughout the above specified extent of coast during the stated period. There is every reason to believe that there were landed during this year (1838), not less than 18,000 more than shown in the tabular Return.

4. H. M. Commissioners and H. M. Consul at Rio de Janeiro. 1 January 1844.

The accompanying Return for this year exhibits the number of vessels said to have landed cargoes to be 97. Total of slaves, 14,891. The total number of slaves, as shown by the present Return, is not one-half of the actual number successfully imported. We are assured that nearly 40,000 have been landed within these provinces in the period.

5. H. M. Consul at Bahia. 30 July 1843.

The great secrecy with which the slave traffic is carried on, and the facilities which this extensive coast offers for the landing of slaves, together with the connivance and venality of the petty authorities, render it impossible to obtain a correct statement as to the number of slaves imported, or places at which they have been landed.

6. H. M. Consul at Pernambuco. 27 July 1839.

The List, No. 2, does not exhibit either the number of slaves landed, or the names of the creeks and inlets in which they have been disembarked, for the utmost diligence of inquiry or vigilance of research cannot arrive at a correct knowledge of these facts, which are impenetrably veiled by the artful combination of all those who are either directly or indirectly interested in the slave trade.

CUBA:—1. H. M. Commissioners at Havana. 1 January 1842.

We are glad to have it in our power to give a return of the vessels and cargoes that have arrived here or in the neighbourhood, including Matanzas, during the last seven years, as taken from the books kept at the store used by the slave-dealers here as an exchange or place of meeting; and supposing these formed three-fourths of the importations into the whole island, a just opinion, we believe, may be approximated on the subject.

2. H. M. Commissary Judge at the Havana. 1 January 1845.

In the year 1843 we estimated that about 8,000 unfortunate Africans had been introduced into this island as slaves, including a supposed addition of one-third to our number reported, on account of those that had not come to our knowledge; whereas the enclosed list gives in round numbers 7,280 of cargoes actually known, together with three other arrivals of which the numbers were not given, and a remaining conviction that several vessels have come to the other parts of the island of which the particulars could not be ascertained.

Foreign Office,  
21 February 1846.
